

Notice

Date: 23.02.2026

It has been observed that some students of B.Com 2nd Semester have not yet enrolled in VAC Courses. This is to inform you that both VAC and PM-USHA Courses are considered as regular academic exercises of students which have been developed in line with NEP, 2020 under FYUGP of GU. These courses help students in enhancing skills in particular field so that students can become employable for jobs or self employed.

I would like to mention that shortfall in any components of internal assessment may be considered from enrollment in VAC/PM- USHA courses. Therefore, those students who have yet to enroll are asked to enroll on or before **28.02.2026 without fail.**

Classes for certificate courses will be started soon and an academic calender of the same will be uploaded soon.
