

DEPARTMENTAL ACTIVITIES

DEPARTMENT OF ECONOMICS K C

DAS COMMERCE COLLEGE YEAR:

2013-2014

From 2012 department of Economics is teaching “Environmental Studies” to the students of HS 1st year and B.COM 3rd semester students which was previously taught by department of English. This change was made by G.B resolution and after that faculty members of Economics with limited man power are trying best to manage both the departments.

Field Trip: A Field Trip has been conducted in the month of December 2013 by Department of Economics taking 150 students of 5th Semester to the trade fair at Maniram Dewan Trade Centre, Guwahati. Students were informed there how to make balance sheet practically. For this they prepared an interview schedule and put questions to the seller coming from different states and foreign countries even.

Field Trip: Apart from teaching the faculty takes initiative in field study so that students can prepare projects on the basis of practical experience. However, in 2012 field study could not be carried out due to paucity of time but in 2013 the same was possible; accordingly students visited places like Uzanbazar to study river pollution. Pollution Control Board, Bamunimaidan, Guwahati, Municipality Corporation (Panbazar). The students carried with them set of questionnaire and collected information. Around 100 students in the 1st week of December/2013 (7/12/13) accompanied by four faculty members (Dr. J.D.P. Choudhury , Dr. U. Chakravarty, Md. D.H.Haque and Mr.S. Talukdar) visited the places and seemed to be satisfied with the assignment. On the way back all had lunch in a dhaba and the day ended with positive impact.
